

## Wireframe

A wireframe for a login page. It features a central container with the title "Medicine App". Inside this container, there are two input fields labeled "User Name" and "Password". Below these fields is a grey "Log in" button. Underneath the button is a link that says "Forgot Password?". At the bottom of the container is the text "Connect Google or Facebook?". The entire login form is enclosed in a larger box with the title "Login" at the top.

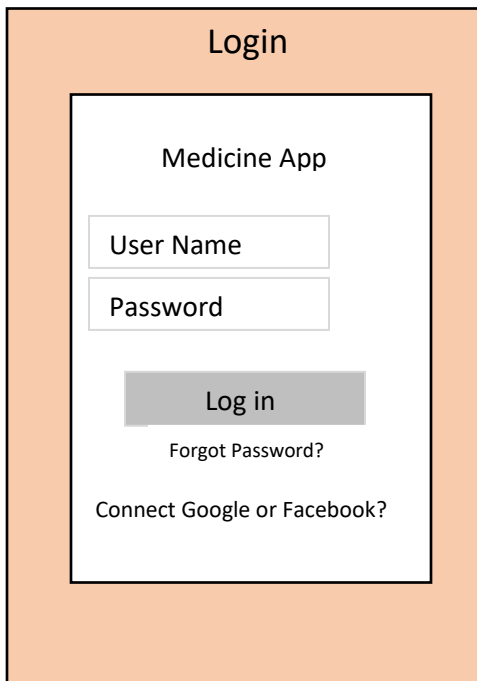

1. Contains user name password fields. Call to action button to log in. also forgot password link.

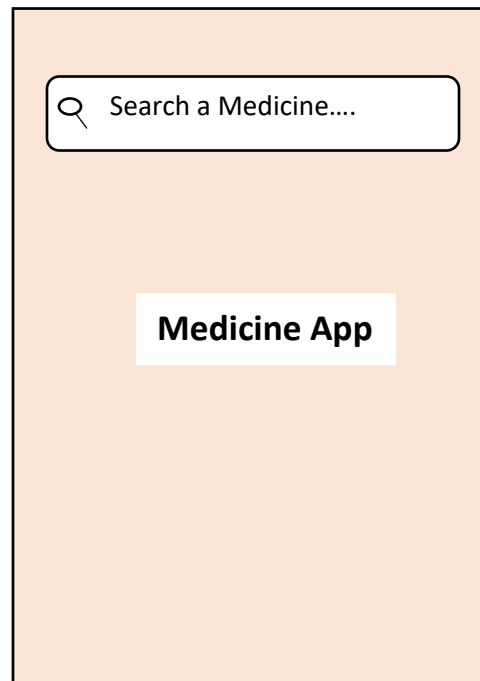

A wireframe for a search page. It features a search bar at the top with a magnifying glass icon and the placeholder text "Search a Medicine....". Below the search bar, the text "Medicine App" is displayed in a large, bold font.

2. Now the user can use the medicine app and search for the medicine they want to know and its purpose.

## Mock Up

A mockup of a login screen. It features an orange background with a white rectangular area in the center. The title "Login" is at the top of the orange area. Inside the white area, the title "Medicine App" is at the top. Below it are two input fields: "User Name" and "Password". A grey "Log in" button is below the password field. Under the button are two links: "Forgot Password?" and "Connect Google or Facebook?".
